

## Patients' opinion about their results after ACLR

Maud Peters  
Research internship Kliniek ViaSana

## ALCR in ViaSana

- Over 330 ACLR each year  
99% using hamstring  
1% using patellar tendon
- 3 Orthopaedic surgeons
- Day treatment

## ALCR in ViaSana

"It felt that orthopedic surgeons of ViaSana knew exactly what sports meant to me and they helped me return to sport as fast as I could."

"Stories I heard about ACLR in Kliniek ViaSana were positive. I never regret choosing ViaSana as well."

"Friends who had been treated in ViaSana were very positive, so I also choose for ViaSana."

"Although ACLR has a long recovery period, it never felt hard. Good guidance of ViaSana and the right attitude helped me to return to the same sport level."

"The surgery and care after surgery were very pleasant. I would recommend ViaSana to everybody!"

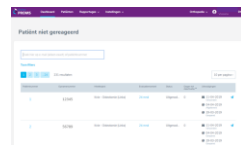

## What do we ask?

- PROMS
  - Quality of life (EQ-5D)
  - Pain (NRS)
  - Function (IKDC-S)
  - Satisfaction (NRS)
  - Anchor questions
- Before and after surgery
- PREMs
  - Overall experience
  - Received care
  - Provision of information
  - Recommendation
- 3 weeks after surgery

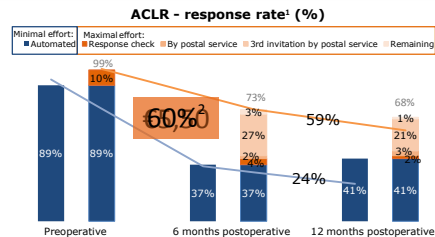

## How do we collect?

- Provision of information
- ICF
- Email or Post
- Data collection system

## Response rate

<sup>1</sup>Reink et al. Response rate and costs for automated patient-reported outcomes collection versus compared to combined automated and manual collection, JPRG, 2015  
<sup>2</sup>Nauman et al. Patient-reported outcome measures in orthopaedic registries. Acta Orthopaedica, 2016

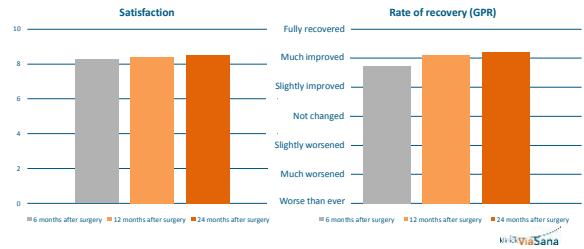

## What do patients think?

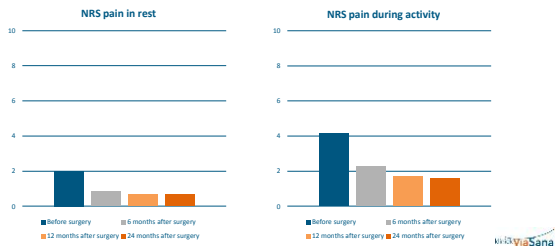

- Surgery in 2015-2017
- ALCR using hamstring
- N=956
- 27 year (13-62 range)
- 21.2 kg/m<sup>2</sup> (16.0-36.7 range)
- 64.7% male

## What do patients think?

## What do patients think?

## What do patients think?

## What do we do with these results?

**Goal:** to optimise quality of care

**Primary:** evaluate results and improve patient information

**Secondary:** quality registries and benchmark

**Tertiary:** transparency to third parties

## What do we do with these results?
